

INSTRUCTIONS FOR FIXING HENLEY ARMS IF LOOSE

Teknik
O F F I C E

- Stage One – Remove the screw covers (these simply pull out) on both sides of the chair

- Stage Two – Remove screw (this requires an allen key) on both sides of the chair

- **Stage Three – Lift backrest section upwards (please note: the back is held in with wooden dowels) so the back needs to be pulled straight up to avoid snapping them.**

- **Stage Four – You can now access the screw(s) that mount the arm(s) (same size allen key) insert screw & tighten firmly.**

- Stage Five – Push backrest down (ensuring the dowels have located into the holes).
- Stage Six – Replace screws on both sides.

- Final Stage – Replace screw covers – these simply push back into place.
